

Fieldacademy ConfrontationLecture – The Results

20th of March 2009, 9.0-12.00

Location: Fieldacademy, Grondherendijk 13, Oud Charlois, Rotterdam

Fieldacademy

The Fieldacademy is a project of the Municipality of Rotterdam and the Faculty of Architecture (Delft University of Technology). With the help of tutors and professionals from the municipality students have to deal with real life situations and complex urban questions. The Fieldacademy's long term goal is to work with a broader range of educational institutions.

ConfrontationLecture

In the beginning of February inhabitants and entrepreneurs shared their stories and visions with the architecture students. The students that take part in the project "Design strategies for regeneration areas". Based on the outcomes of the introductory lecture research and design guidelines were formulated. The best plans will be presented to the public.

We hereby invite to join!

The presentations will be on the 20th of March from 9.00-12.00h. Presence during the whole program is not compulsory.

*In the afternoon another group of international master students will present their plans for the public space concerning social and economical aspects of the district. We invite you to stay and join!
Start 13.30h, presentations will be in English!*
